### **A Visit to Mount Bromo National Park**

Last July, I along with some school friends took a trip to Mount Bromo National Park in East Java. We were very excited because it was our first time visiting the place. We started the journey from Surabaya at 4 in the morning. The journey to Mount Bromo took about 3 hours by car. Once we arrived there, we were greeted by the breathtaking view of the Bromo crater towering amidst the sea of sand.

We rode horses to reach the top of Mount Bromo. The sensation of the cool wind and the spectacular scenery made this horseback ride unforgettable. Upon reaching the summit, we could witness the stunning sunrise, making all the tiredness and hardships during the journey worthwhile.

After enjoying the beautiful scenery, we descended back down and visited the Whispering Sands area. There, we could see the vast expanse of sand and feel the gentle breeze sweeping across our faces.

After a day of adventure, we returned to Surabaya with many wonderful memories. Our visit to Mount Bromo National Park will always be an unforgettable experience for all of us.

Where did the narrator start their journey to Mount Bromo?

What did the narrator and their friends use to reach the summit of Mount Bromo?

Where did the narrator visit after descending from Mount Bromo?

Horses

Whispering Sands area

Surabaya

In the space provided, write a recount text based on your personal experience. Tell us about your most memorable event!
