

Read the following story and answer the questions

It was a sunny afternoon. Sara and her friend John decided to go for a walk in Lakewood Park in Saskatoon. The park is a beautiful place with many trees, a lake, and plenty of space to walk and relax.

As they walked along the path, they enjoyed the sounds of birds singing. Suddenly, Sara stopped and shouted. "Look over there!" John turned his head and saw a small, red animal behind the bushes. It was a red fox! The fox had bright red fur, a big tail, and black feet. It was looking for food on the ground.

"Wow, a red fox!" John said softly. They both watched the fox quietly, not wanting to scare it away. The fox sniffed the ground, looking for something to eat.

Sara took out her phone and took a picture. "This is amazing," she said. "I have never seen a red fox so close before."

After a few minutes, the fox looked up, saw Sara and John, and then ran away. They felt lucky to have seen such a beautiful animal in the park.

Sara and John continued their walk, talking about the fox. They all feel that Lakewood Park was one of their favorite parks in Saskatoon!
