**READING SECTION (10 points)**

B. Read the article. Then read the questions and choose the correct answers. (2 point each)

Healthy mind, healthy body

Being healthy means taking care of your mind and your body. If you keep your mind busy with positive activities, it will stay healthy. But how do we keep our bodies healthy?

Fast food isn't on the way out, but healthy options are gaining popularity. Hotdogs are great for barbecues and will never go out of style. But let's look at some healthy alternatives.

Think about what you drink. A can of soda has dozens of grams of sugar. But if you choose a sugar-free alternative like iced tea or some juices or even coconut water, you will reduce those harmful sugars. You won't be on the path to a healthy lifestyle until you make better drinking choices.

Cut down on oils and fried food. If you like to fry food, you can use good, healthier kinds of oil. Coconut oil is the latest thing known to be very good for you.

Variety is good. There are many foods that you might not think about eating often, such as tuna, shrimp, eggplant, zucchini, and cabbage. Of course, a lot of these foods are better if you add a little flavor. Consider cooking with garlic, ginger, and even mint, all of which are healthy.

Finally, Hot Pots are the latest thing in cool cooking. You go to a restaurant and choose your ingredients from meat, seafood, and vegetables. After you put the food into a very hot soup, you eat it together with a group of people. Enjoy healthy eating with friends!
