

Gotta find a better to quit the cigarettes
Gotta drink another drink I can forget
Gotta find a way tolike I'm myself
With the whiskey the things that I do regret
And I know there were things I not have said
I believe you'vegot them written down

When thearound me can feel so rotten

I am for making you feel so low

Never gonna lose these feelings I

Always gonna be the..... old tired shit

What would you do?

There will be a feeling I suspect

All apologies are something sent

I lie awake at night, I'm trying not to a sweat
Mind is racing, there's no for me yet
Gotta find a way to get away from
I really wish I could erase all the I did
I really wish I a path to recompense
I really wish I had a..... to cleanse myself
