Clothes of the

Hi, everyone! Fashion has changed so much over the years. What do you think clothes will be **0) like** in the next century? Do you think the clothes of the future will be full **1) _____** amazing technology so that we will all wear the same clothes every day?

Cathy 13:00

Like

2) _____ the same clothes every day means we won't have to spend so much time thinking about what to wear. It sounds like a good idea, but I don't think people will want to do that. In the next one hundred years, I think clothes will be very high-tech. **3) _____** the moment, scientists are designing clothes with microchips and small computers in them!

Like

We all love clothes and I don't think this will change **4) _____** the future. Our clothes will be much more comfortable and they will be able to change shape and colour. I believe clothes **5) _____** have small computers in them that will help us communicate with our friends. That would be so cool! Perhaps we won't need our smartphones at all in the 22nd century!
