Listening Part 5 Exam Tips

- First, read the instructions. Then, read the questions and think about what the conversation is about.
- The words in the first list can be people, days of the week, buildings, places, countries, towns, books, films, etc
- The words in the second list are from the same set of words (for example: food, toys, colours, feelings, adjectives that describe situations, activities, etc).
- Remember that in the second list, the words you **hear** are sometimes not the same as the words you **read**. For example, you might not hear the word **funny** but, instead, you may hear: *(it made me) laugh*.
- During the first listening, find out what the conversation is about and choose the best answer for each question.
- Listen to the conversation again and check all your answers carefully.
- Finally, in case you do not know for sure what the correct answer is (in any part of the test), make sure you write an answer anyway.
