The world's BIGGEST bunny

Rabbits are small, cute pets, right? Think again. Meet Darius, the biggest rabbit in the world! He is the same size as a five-year-old child!

Darius eats carrots, apples, cabbages and rabbit food. He likes carrots best. He eats 12 carrots a day, more than 4,000 carrots a year! His owner, Annette, says, 'Darius can't stop eating. He always wants more carrots!'

Darius is friendly. He likes sitting on the sofa with Annette. She likes stroking him. 'His fur is soft and he's very cuddly,' she says. 'We like watching TV together.' Lots of rabbits are shy, but Darius isn't. He likes meeting people.

Darius can't live in a rabbit cage because he is too big! He sleeps in a dog bed next to Annette's bed. These two are very good friends!
