Name:

Class:

Date:

FINAL TEST

Time: 90'

I. Circle the word with the underlined letter(s) pronounced differently from that of the others.

1. A. chemical B. discharge C. change D. feature
2. A. nature B. nation C. suggestion D. situation
3. A. scatter B. panda C. capture D. devastate
4. A. danger B. village C. tiger D. origin
5. A. supply B. dirty C. energy D. happy
6. A. swallow B. switch C. sweet D. sword
7. A. wild B. prohibit C. environment D. survive
8. A. danger B. race C. discharge D. maintenance
9. A. supply B. survive C. industry D. agriculture
10. A. scenic B. extinct C. decrease D. coexist

II. Choose the word or phrase A, B, C, or D that best completes the sentence or substitutes for the underlined word or phrase.

1. What exactly is the influence of air pollution..... human beings?
A. to B. with C. on D. for
2. The campaign will hopefully ensure the survival..... the tiger.
A. of B. for C. to D. on
3. It is possible for local wildlife to coexist..... industry.
A. to B. of C. in D. with
4. The health of our children is being..... by exhaust fumes.
A. danger B. endanger C. dangerous D. endangered
5. The society was set up to..... endangered species from extinction.
A. prevent B. distinguish C. preserve D. survive
6. If people stop destroying animal's natural habitat, more species will survive and produce.....
A. offspring B. ecology C. landscape D. benefit

LIVEWORKSHEETS

7. People in this region cultivate mainly rice and vegetables.
A. destroy B. grow C. develop D. support
8. Among the problems facing the national park's manager, the most serious ones are those of..... and expansion.
A. improvement B. reassessment C. distinction D. maintenance
9. Oil spills are having a devastating effect on coral reefs in the ocean.
A. powerful B. significant C. disastrous D. detectable
10. The factory was fined for..... chemicals into the river. A.
discharging B. dumping C. producing D. exposing.

III.Read the passage carefully, then choose the correct answers.

The natural world is under violent assault from man.
The seas and rivers are being poisoned by radioactive wastes, by chemical discharges and by the dumping of dangerous toxins and raw sewage. The air we breathe is polluted by smoke and fumes from factories and motor vehicles; even the rain is poisoned. It's little wonder forests and lakes are being destroyed and everywhere wildlife is disappearing. Yet the destruction continues.
Governments and industries throughout the world are intensifying their efforts to extract the earth's mineral riches and to plunder its living resources. The great rainforests and the frozen continents alike are seriously threatened. And this despite the warnings of the scientific community and the deep concern of millions of ordinary people.
Despite the fact, too, that we can create environmentally-clean industries, harness the power of the sun, wind and waves for our energy needs and manage the finite resources of the Earth in a way that will safeguard our future and protect all the rich variety of life forms which share this planet with us.
But there is still hope. The forces of destruction are being challenged across the globe - and at the spearhead of this challenge is Greenpeace.
Wherever the environment is in danger, Greenpeace has made a stand.
Its scientific presentations and peaceful direct actions at sea and on land have shocked governments and industri1es into an awareness that Greenpeace will not allow the natural world to be destroyed. Those actions, too, have won the admiration and support of millions.
Now you can strengthen the thin green line; you can make your voice heard in defence of the living world by joining Greenpeace today. Thank God someone's making waves.

1. Which of these statements is not made?
A. Drinking water is polluted. B. Radioactive waste poisons the sea.
C. Sewage isn't processed. D. Cars and factories poison the air.
2. The writer.....
A. is surprised that the rain is poisoned.
B. is unsured why the air is polluted.
C. wonders why the natural world is being destroyed.

LIVEWORKSHEETS

D. understands why forests and lakes are being destroyed.
3. Rainforests are being destroyed because governments and industries..... A. are unaware of what they're doing wrong.
B. are rich and powerful.
C. choose to ignore criticism.
D. basically care about the environment.
4. The earth's resources.....
A. should only be for people B. can be made to last longer. C. will last forever. D. belong to just humans and animals
5. Governments and industries.....
A. don't know what Greenpeace thinks.
B. are forced to understand the problems by Greenpeace.
C. can easily ignore Greenpeace.
D. misunderstand what Greenpeace thinks.

IV. Fill in each blank with one appropriate word from the box.

represents	**fueled**	**oversee**	**alarming**	**lost**	**imported**
establish	**reduced**	**covered**	**sought**	**derived**	**cleared**

The rate at which the deforestation of the world is proceeding is (10)..... In the 1950 approximately 25 percent of the earth's land surface had been (11)..... with forests, and less than twenty-five years later the amount of the forest land was (12)..... to 20 percent. This decrease from 25 percent to 20 percent from 1950 to 1973 (13)..... an astounding 20 million square kilometers of forests. Predictions are that all, additional 20 million square kilometers of forest land will be (14)..... by 2020.
The majority of deforestation is occuring in the tropical forests in developing countries, (15)..... by the developing countries' need for increased agricultural land and the desire on the part of developed countries to import wood and wood products. More than 90 percent of the plywood
used in the United States, for example, is (16)..... from, developing countries with tropical rain forests. By the mid-1980s, solutions to this expanding problem were being (17)..... , in the form of attempts to (18)..... an international regulatory organization to (19)..... the use of tropical forests.

V. Choose the word or phrase - a, b, cor d - that needs correcting.

1. Among us (A) students are many foreigners (B) whose (C) attend language classes at the (D) south campus.
2. Is it right that politicians (A) should make (B) important decisions without consulting (C) the public to who (D) they are accountable?
3. The environment where (A) wild animals are living (B) is now badly (C) destroying (D). 4. AU nations may have to make (A) fundamental changes in (B) their economic, political, and the technological institutions (C) if they are to preserve (D) the environment.
