### LEARNING TO LEARN: READING

#### Reading to research different options

When you need to make a decision, it's good to research each option. Here are four tips for reading information online:

- 1 Go to good quality websites, e.g., news sites, businesses, or colleges. Check any information or facts on different websites. If information only appears on one website, it may not be correct.
- 2 Check that the writer knows the subject well. Search for their name and other articles they have written.
- 3 Some websites are actually ads. For honest opinions, look for independent reviews on good quality websites.
- 4 Check the date and time of the article.

Take notes for the questions below.

- 1 Do you usually do research before you make a decision?
- 2 Which tips from the box do you do?
- 3 Which tips from the box do you want to start doing?

# Let's be different!

## José (Group admin)

Life is a journey and everyone lives <sup>1</sup>it differently. Although many people think that going to school, college, getting a job, leaving home, getting married, and having children are common life events, not everyone does all or any of <sup>2</sup>them. What has your life journey been so far? Share your experiences with us!

## Li

I feel like I've done all the things on your list! I graduated high school at eighteen, went to college, then went traveling around South America. After <sup>3</sup>that, I planned to save money and travel again, but instead I got a job, got married, and had kids. I'm happy and my children are great fun, so I think I've made the right choices.

## José (Group admin)

Sounds like you've made great life choices! My story is similar.

## Ibrahim

I finished studying when I was fourteen. I wanted to continue, but <sup>4</sup>it was too expensive and the nearest high school was 60 km away. I got a job at my uncle's clothing store at the market. I saved enough money there to open my own business selling ice cream. Now I own a popular ice cream shop. I haven't met the right person to spend my life with, but I hope to soon!

## José (Group admin)

Well done! Where is your shop? I love ice cream!

## Antonia

I'm still at school. I work in a garage on weekends. I answer the phone in the office, but I'm also learning to fix cars, too. I'm saving money to buy a motorcycle. I want to tour around China! I love that idea, but my mom doesn't. She is trying to persuade me to save my money and study computer science at college, but I don't really like studying. I prefer traveling or fixing cars.

## Ibrahim

Sounds like you enjoy working in the garage. I recommend doing <sup>5</sup>that!

## José (Group admin)

Your mom sounds smart. Motorcycles are dangerous! Listen to <sup>6</sup>her!
