LEARNING TO LEARN: READING

Reading aloud

Reading aloud is to read the text and say the words at the same time. Reading aloud is good practice for pronunciation. It can also help you learn new words. Follow these steps to practice reading aloud.

- 1 Choose one paragraph from a text. Scan the paragraph. Circle words that you don't know how to pronounce.
- 2 Check the pronunciation in a dictionary or with an English speaker. Make notes. You can also ask an English speaker to read the text aloud so you can record it.
- 3 Practice reading the text aloud. Record yourself with your phone.
- 4 Listen to the recording and check your pronunciation. What could you improve? Remember, your pronunciation doesn't need to be perfect. It just needs to be clear.

Choose one paragraph from the text on page 53 and practice reading aloud using the steps in the box.

The future of Jeju Island's haenyeo

Anyone who visits Jeju Island knows about the *haenyeo*, the women who dive for seafood. This is a traditional job that women on Jeju Island have done for years, but it is not easy. The women dive for seven hours a day, in cold water, all year round. Many of these women continue to work in their 70s and 80s. They enjoy it and it makes them feel good.

In the past, mothers and grandmothers taught their daughters how to dive and they wore only thin cotton clothes. Now, they have thick wetsuits to keep them warm, but this job was becoming less popular. This is because young women on Jeju Island were choosing to move off the island to go to college or to find other kinds of work.

In 2016, the United Nations Educational, Scientific, and Cultural Organization (UNESCO) put the *haenyeo* on a list of important cultures. Many people thought it was important to protect the work, so two schools opened to train new *haenyeo*. To work as an official *haenyeo*, you need the support of the local *haenyeo* group in a fishing village first. This can be difficult as there are fewer fishing villages than before.
