

A Little Time Lyrics - Beautiful South

I need a little time,
To think it over,
I need a little space,
Just on my own
I need a little time
To find my freedom
I need a little time.....

Funny how quick the milk turns sour, _____, _____?
Your face has been looking like that for hours, _____, _____?
Promises, promises turn to dust
Wedding bells just turn to rust
Trust into mis-trust

I need a little room
To find myself
I need a little space
To work it out
I need a little room
All alone
I need a little time.

Need a little room for your big head, _____, _____?
Need a little space for a thousand beds, _____, _____?
Lips that promise feel the worst
Tongue so sharp the bubble bursts
Just into un-just

I had a little time
To find the truth
I had a little room
To check what's wrong
I need a little time
I still love you
I need a little time

Had a little time and you had a little fun, _____, _____?
Well you had yours do you think I had none, _____, _____?
The freedom that you wanted so bad
Is yours for good, I hope your glad
Sad into un-sad

I had a little time
To think it over
Had a little room
To work it out
I found a little courage
To call it off

I had a little time x4
