Social media can make new friendships seem easy to make, but sometimes these sites are not ²helpful / kind / polite for making new friends. How do we know that we'll ³do / get / make on well with someone just from their profile and a few comments online? They might seem calm and ⁴bossy / crazy / patient at first, but they might actually be ⁵funny / rude / tidy and angry when we meet them.

Other ways to make friends include joining a club, or being a ⁶career / profession / volunteer for a local charity. We can ask people we work with to go out somewhere, and maybe get to know their friends. And of course, we can be ⁷bossy / friendly / tidy to strangers when we're in the park or at a bus stop as they might make a good friend. Just don't talk about what's happening in ⁸politics / wages / weather in your country. That's never a good way to try to start a friendship!
