5 Complete the text using **seven** words from Activity 4.

Electric scooters – a guide for beginners

At first we only saw them in airports, but nowadays the number of electric scooters has **(a)** ..... and they are pretty much everywhere, providing a reliable means of transport. For anyone concerned about traffic jams and **(b)** ..... roads, an e-scooter is an excellent solution for **(c)** ..... around town.

Riding an e-scooter is no different from riding a bike. At first you may lack confidence and be afraid of something **(d)** ..... happening, but you will soon realise how easy and comfortable they are to ride.

In some places e-scooters are only allowed to be driven on the road, and the last thing anyone wants is more **(e)** ..... caused by careless riders. Make sure you get plenty of practice on a quiet street or somewhere without other vehicles before you go into town. Consider joining one of the many government **(f)** ..... designed to teach you the skills required to be a safe, confident e-scooter rider.

A helmet is required by law when riding an e-scooter. Other protective gear, such as elbow and knee pads, are optional, but if you did fall off or were involved in an accident, these pads can go a long way to preventing severe **(g)** .....
