In short

Choose all the cause and effect linking words, say yes or no.

Indeed

Similarly

Therefore

In other words

As a result

Consequently

Choose the right option:

A) Yet; B) indeed; C) however; D) moreover.

Energy Efficiency

There is a source of energy that produces no radioactive waste, nothing in the way of petrodollars, and very little pollution. (1), the source can provide the energy that conventional sources may not be able to furnish. Unhappily, (2), it does not receive the emphasis and attention it deserves.

The source might be called energy efficiency, for Americans like to think of themselves as efficient people. (3), the energy source is generally known by the more prosaic term conservation. To be semantically accurate, the source

should be called conservation energy, to remind us the of the reality—that conservation is no less an energy alternate than oil, gas, or nuclear. ____ (4)_____, in the near term, conservation could do no more than any energy problem it has (adapted from Energy futurem by Daniel Yergin, Random House, 1979).

1. D-1, C-2, A-3, B-4
2. A-1, B-2, C-3, D-4
3. D-1, B-2, A-3, C-4
4. B-1, A-2, D-3, C-4
