Tree Branch Fell on Woman while Jogging

TAIPING, Sat – A forty-five years old woman was killed when a tree branch fell on her while she was jogging with her husband.

According to her husband, Halim, he and his wife, Mariam, would usually jog at six every morning. However, they went out later that morning as the rain continuously fell heavily since last night. He said this would not have happened if they had followed their usual jogging time. It was purely a case of being at the wrong place at the wrong time.

A city council spokesman said that the weak and falling branches of the trees in the park were already cut last month. He stated the branch that fell on Mariam could have been struck by lightning during last night's heavy pour and thus weakened. He advised joggers not to go jogging under big trees after a thunderstorm.
