Read the following passage and mark the letter A, B, C, or D to indicate the correct answer that best fits each of the numbered blanks from 21 to 25.

The food chain is a natural order where living (21) _____ rely on each other for food. At the base of the food chain are plants which create their own food through photosynthesis. Herbivores consume these plants. Carnivores prey on the herbivores. Apex predators, like sharks and eagles, feed on other carnivores. They are at the (22) _____ of the food chain. Bacteria and fungi break down dead organisms and organic matter, recycling nutrients back into the environment. This interconnected chain helps maintain balance in ecosystems.

(23) _____, environmental problems are disrupting this delicate balance. Plastic in oceans, for example, harms small organisms (24) _____ form the basis of the aquatic food chain. When fish consume these contaminated organisms, they affect larger predators and even humans who consume them. (25) _____ is another issue as cutting down trees removes habitats for many herbivores and affects predators which rely on them for food. The rise of temperature threatens the food chain, too, because some species struggle to find places to live and sources of food.

Read the following passage and mark the letter A, B, C, or D to indicate the correct answer to each of the questions from 26 to 30.

There are various factors which may affect a person's choice of a job. Passion, family tradition, salary and work-life balance are just some of them.

Many people pursue careers based on their interests and hobbies. For instance, someone with a love for animals may do a job in veterinary care while art-lovers might go for a job in the creative industry. Family tradition is another significant motivator. Some individuals would like to follow the professional footsteps of their parents. They

learn from the experience of the previous generation and keep a sense of continuity within their family.

Other practical considerations guiding job choice are salary and work-life balance. While a large number of people opt for positions which offer competitive payment and benefits, many choose jobs which allow them to maintain a healthy balance between professional and personal life. Such a balance may come from a supportive work environment and flexible working schedules.

Ultimately, people's job choices are shaped by a blend of personal interests, family influence, financial considerations, and the overall work environment. This complex interaction has resulted in diverse career paths of people in the society.
