

**Mathematical Concepts**  
**Skill: Mean, Median, Mode, Range**

Use the chart to answer the questions below.

| DAILY TEMPERATURES IN NASSAU |     |     |     |     |     |     |
|------------------------------|-----|-----|-----|-----|-----|-----|
| 84°                          | 84° | 87° | 83° | 64° | 84° | 87° |

1. Arrange the numbers on the chart in ascending order. Write the answers in the empty boxes below.

| DAILY TEMPERATURES IN NASSAU |  |  |  |  |  |  |
|------------------------------|--|--|--|--|--|--|
|                              |  |  |  |  |  |  |

2. Using the completed data from number 1, write down the following:

- a. The number that is the median \_\_\_\_\_
- b. The range \_\_\_\_\_
- c. The mode \_\_\_\_\_
- d. The outlier \_\_\_\_\_

3. From the number **649 528 901** write down the following

- a. the digits that are in the millions period. \_\_\_\_\_
- b. the value of the digit that is in the thousands place. \_\_\_\_\_

4. Write the letter of the diagram that is showing a isosceles triangle. \_\_\_\_\_
