

Lets her go!

Well you only need the _____ when
it's burning low

Only miss the _____ when it starts to
snow

Only know you love her when you let

Only know you've been high when
you're _____ low

Only hate the road when you're
missing _____

Only know you love her when you let
her go

And you let her go

Staring at the _____ of your glass
Hoping one day you'll make a dream
last

But _____ come slow and they go
so fast

You see her when you _____ your
eyes

Maybe _____ you'll understand
why

Everything you _____ surely dies
