

Butterflies are amazing creatures! As butterflies become adults, they go through many changes.

Butterflies have four stages in their life cycle. Each stage is very different.

Part I. Below, label each stage in the life cycle of the butterfly by dragging and dropping each word in the correct box.

Part II. Write a sentence for each word below, in the box next to the word.

1. Butterfly

2. Pupa

3. Larva

4. Egg
