5 LISTENING

- a 4.2 Listen to someone talking about the percussionist Evelyn Glennie. In what way is she an unusual musician? 

- b Listen again and complete the summary.

Evelyn Glennie was born in Aberdeen, Scotland. She studied at the Royal Academy of Music. She has been performing for more than 40 years, and plays 20 different percussion instruments. She not only plays and records classical and pop music, but has also composed several movie soundtracks. Evelyn finds it frustrating that journalists often write about her life more than her music. She thinks that there is no real difference between hearing and feeling a vibration. Evelyn never wears earplugs when she performs, in order to feel the vibrations of her instruments.
