

# 1

# Environments and habitats

## > 1.1 Habitats

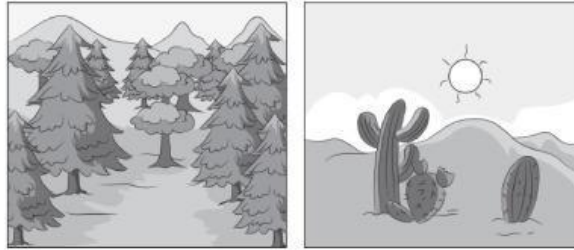

**Focus**

1 Draw a living thing from this environment in each of the boxes.

**Practice**

Look at these two habitats.

One is a cool forest, the other a hot desert.

2 Complete the sentences to say how these habitats are different.

Use these words:

living things

cool

dry

forest

eat

plant

- A habitat is the natural home of an animal or \_\_\_\_\_.
- The desert habitat is hot and \_\_\_\_\_.
- The forest habitat is \_\_\_\_\_.
- The desert habitat has fewer \_\_\_\_\_.
- There are many living things in the \_\_\_\_\_.
- The forest animals have many plants to \_\_\_\_\_.

**Challenge**

3 Complete the table.

Say where the bird, tree and rabbit find what they need to live.

Living thing	What each living thing needs	Where they find it
bird	food	on the ground and around the tree
	water	
	home	
tree	light	
	water	
	soil	underground
rabbit	food	
	water	
	home
