

"Tell us what you like to do on your birthday. Explain why you like to do that."

On My Birthday

On my birthday, I like to have a party with my friends and family. I enjoy celebrating with the people I love.

Every year, we decorate the house with balloons and streamers. We play fun games and listen to music. I also have a big birthday cake with candles. Everyone sings "Happy Birthday," and I make a wish before blowing out the candles.

I like to open presents and see what surprises I get. My friends and family always give me thoughtful gifts. We also take lots of pictures to remember the special day.

Celebrating my birthday is important to me because it is a time of joy and happiness. It is a day to feel special and loved. I enjoy making memories with the people who mean the most to me.
