IV. Read the following passage and do as direct. (17-22)

Protecting the environment is important for the health of our planet. We can all contribute by using products that are eco-friendly. One way to do this is by using reusable bags instead of plastic bags when we go shopping. Reusable bags are strong and can be used many times, which helps reduce waste.

Another way to protect the environment is by using energy-efficient light bulbs. These bulbs use less electricity, which helps conserve energy and reduces greenhouse gas emissions. It's a small change that can make a big difference.

We can also choose to buy products that are made from recycled materials. When we buy recycled products, we support the recycling process and help reduce the need for new raw materials.

Let's all do our part to protect the environment. By making simple choices like using reusable bags, energy-efficient light bulbs, and buying recycled products, we can help create a cleaner and healthier planet for ourselves and future generations. Together, we can make a positive impact on the environment.
