

My Classmates

I have many classmates, and we all study together in the fourth grade. My best friend is Anna. She is very kind and always helps me with homework. Tom is the funniest boy in our class. He always tells jokes and makes everyone laugh. Mary is very smart, and she loves to read books. She is always ready to share interesting facts with us. Alex is good at sports, and he plays football very well. We all like to play together during recess. I am happy to have such wonderful classmates because we all help each other and have fun together.

Choose if the sentences are True (T) or False (F).
