Hi everyone! Today I want to talk about hobbies. Do you have a hobby? I love arts and crafts. I think they are fun and relaxing. Sometimes I use plastic, wooden, and metal items. I also use paper and scissors to make cool things.

My favourite project is to decorate old items. I once took an old flowerpot and made it look new. I put colourful buttons all around it. It looked great! Some people thought it would look horrible, but I didn't believe them. It turned out beautiful.

I am crazy about making handmade gifts. My friends are always interested in what I make next. Are you adventurous? If so, you should try a new hobby too! You might find something you are really into. Have a great day!
