Greetings,

Long time, no see. Where have you <sup>1</sup> be \_\_\_\_\_? In this email, I am going to write about my number one colour and explain how unusual it is for <sup>2</sup> I \_\_\_\_\_.

My favourite colour is **white**. Look around and you will find this bright colour everywhere! The sky is more <sup>3</sup> beautifull \_\_\_\_\_ with the moon, stars, and clouds and snow makes the top of high <sup>4</sup> mauntains \_\_\_\_\_ more attractive. In addition, without salt and <sup>5</sup> shugar \_\_\_\_\_ most of what we eat would be less tasty. Furthermore, food like rice, eggs, and milk <sup>6</sup> are \_\_\_\_\_ extremely important to our health and growth. Last but not least, without our bones and teeth we <sup>7</sup> can not \_\_\_\_\_ live for long. <sup>8</sup> this \_\_\_\_\_ special colour is the symbol of purity, simplicity, and coolness. White things <sup>9</sup> make also \_\_\_\_\_ us feel safe and relaxed and that's why bed sheets are usually this colour.

Write back <sup>10</sup> soon \_\_\_\_\_

Xoxo
