

# 28 School report

Read through the following School report and try to write in the names of the subjects. Look at the example first.

| HASTINGS COMPREHENSIVE SCHOOL      |       | SCHOOL REPORT                                                                                                        |
|------------------------------------|-------|----------------------------------------------------------------------------------------------------------------------|
| Pupil's name: <u>Joanna Steele</u> |       | Class: <u>4B</u>                                                                                                     |
| SUBJECT                            | GRADE | TEACHER'S REMARKS                                                                                                    |
| ENGLISH                            | C+    | Quite good, but her spelling needs to improve.                                                                       |
|                                    | B     | Good. Her holiday in Paris has certainly helped her a lot.                                                           |
|                                    | C-    | Needs to work harder - especially at map reading.                                                                    |
|                                    | A     | An excellent pupil. Very interested in the subject and her project on "Roman Britain" was the best I have ever read. |
|                                    | D+    | Poor. Still uses her fingers to count!                                                                               |
|                                    | C     | Fair. A lot to learn but seems to enjoy doing experiments.                                                           |
|                                    | B+    | Always tries hard and is becoming an excellent tennis player.                                                        |
|                                    | E     | Very poor. Hates the subject - especially singing.                                                                   |
|                                    | C+    | Quite good. Likes drawing teachers!                                                                                  |
|                                    | B     | A good pupil. Regularly does the readings at Morning Assembly.                                                       |
