Time flies

The expression "Time flies when you're having fun" means that when you're enjoying yourself, time seems to pass very quickly.

For example, when you're on vacation in country and everything is new and exciting, you may be surprised by how fast your

vacation ends , time itself did not really start moving faster during your vacation,

you feel that you only left your house

yesterday , a bus ride may feel much longer than it actually is. When you are sitting on a

bus for hours and everyone around you

minutes can feel like hours.
