A Family Emergency Plan

The thing about emergencies and disasters is that there usually isn't a lot of time to prepare for them. An emergency can strike any place at any time. Is your family prepared?

The best way to deal with an emergency is to prepare for it before it happens. You can do this by making a family emergency plan. Here are some tips on how to prepare one:

- Put a list of emergency phone numbers, including the police, fire, and emergency medical departments, near every phone. Review with children how to call these numbers.

- Make an emergency supplies kit. This should include non-perishable food, bottled water, flashlights, matches, batteries, blankets, a battery-operated radio, a first-aid kit, etc.

- Teach responsible family members how and when to shut off water, gas, and electricity sources in the house.

- Learn basic first aid.

- Decide what you will take and where you will go if you have to evacuate.

- Decide what to do if your family is separated. Choose a place to meet in case you can't return to your home. Pick a friend or family member who lives out of the area to stay in contact with.

- Regularly review and practice your plans.

- ☒ Have a plan in case there is an emergency or disaster.
- ☐ Write down emergency telephone numbers.
- ☐ Gather together some things you might need in an emergency.
- ☐ Show young children how to turn on and off the water, gas, and electricity.
- ☐ Know how to use the items in a first-aid kit.
- ☐ Decide when to evacuate.
- ☐ Find a place for everyone in your family to go if you aren't together.
- ☐ Practice your plans one time.

20 Complete the indirect speech statements with information from the brochure.

1. The brochure says to prepare for an emergency before it happens.
2. The brochure tells people _____ a family emergency plan.
3. The brochure says _____ with children how to call emergency phone numbers.
4. The brochure says _____ where you'll go if you have to evacuate.
5. The brochure tells you _____ a place to meet if you can't go home.
