MY FAMILY AND OUR DAYS

My family is small—just the four of us: my father, my mother, my sister, and me. I am the youngest, and my name is Sarah. My father's name is John, and he is tall with brown hair. He is smart and works downtown as a manager. Even though his job is busy, he is always home for dinner. My mother's name is Emily. She is shorter than my father and has curly hair. She works from home and is an amazing cook. Every evening, she prepares delicious meals, and I love helping her in the kitchen.

My sister, Lisa, is older than me. She is very sporty and plays soccer and basketball at school. She is always running around with her friends but always finds time to hang out with me too. We live in a cozy house in the city. There is a small garden in front of our house where we grow flowers and vegetables. Max, our dog, loves playing in the garden and chasing butterflies.

Every evening, we gather around the dinner table, share stories about our day, and laugh together. After dinner, we usually watch TV or play board games. On weekends, we go to the park to ride bikes or have picnics. I feel lucky to be part of such a wonderful family. We are always there for each other, and I wouldn't want it any other way.
