THE LOGO CHALLENGE

ORIENTATION

At first, Lisa struggled with her design. She created many sketches, but none of them felt right. Frustrated and discouraged, she thought about giving up on the contest. She felt stuck and couldn't find the right inspiration for her logo.

COMPLICATION

Lisa was a young student who loved to draw. One day, her school announced a contest to design a new logo for the school Website. Lisa was excited but also nervous because she had never created a logo before and wasn't sure if she could do it.

RESOLUTION

When Lisa submitted her final logo, she felt proud of her hard work. A week later, the principal announced that Lisa's design had won the contest! Everyone loved how the tree symbolized growth and learning. Lisa realized that through creativity and perseverance, she could design things that told meaningful stories and brought joy to others.

RE-ORIENTATION

The next day, while walking through the school garden, Lisa saw a beautiful tree with branches that spread like welcoming arms. The image gave her a brilliant idea! She quickly sketched a tree with books as its leaves, representing knowledge and growth. Lisa refined the design using the school's colors—blue and yellow—and added the school's name in a clear, simple font to make the logo bright and cheerful.
