

## UNIT 2 – LESSON 3.1 – FILL IN THE GAPS

**Alice:** Welcome back to Teen Talk. We are going to continue our topic about the (1)\_\_\_\_\_ gap. We have already spoken about how (2)\_\_\_\_\_ have changed. Now, we are going to talk about what (3)\_\_\_\_\_ generations can learn from the older ones. Older generations have a lot of life (4)\_\_\_\_\_. Some have lived through some very difficult times, and some have built businesses from nothing. The first thing we can learn is how to deal with (5)\_\_\_\_\_. By "adversity," I mean "difficult times in our lives." Many of us younger people find it difficult to (6)\_\_\_\_\_ (7)\_\_\_\_\_ stress and adversity. I think older generations could teach us how to stay (8)\_\_\_\_\_ during hard times. The next thing is how to plan effectively. We may make many plans for the future, but we haven't lived long enough to see how our long-term plans work. Older generations have made plans and seen how well they worked. We should ask them how to (9)\_\_\_\_\_ our own future better. Finally, they can teach us how to have long, happy relationships. Older generations on average have much longer (10)\_\_\_\_\_. They could give us tips on how to (11)\_\_\_\_\_ good relationships. That's all for this segment. Come back after the break to learn about what we can (12)\_\_\_\_\_ with the older generations.
