**Task 1: True or False.****SCHOOL SUBJECTS**

Peter and Sarah are 8 years old. They go to a nice Primary school in their village. The school is very small but they love it. Peter loves Mondays because he has Science, Music and Maths; and Sarah really enjoys Thursday because she has Language, English and Art. They both like P.E but none of them like Geography.

But the best day of the week is Friday: they have Language, Maths, Art and P.E so both of them are happy!

Next year, they are going to go to Secondary school. They are going to learn new subjects like Chemistry or Physics. They are a little worried but everything is going to be OK.
