

1. Complete the text with the past passive voice ____/10

An inventor from the US – Thomas Edison

A lot of the things we enjoy today

(a) _____ (invent) in the US. For example, potato chips, the microwave and the laser printer (b) _____ all _____ (create) by Americans.

Two forms of transport (c) _____ (build) in the US before anywhere else, too. The aeroplane (d) _____ (design) by the Wright Brothers and the first automatic car (e) _____ (develop) by General Motors.

However, over 100 items (f) _____ (make) by one person alone, Thomas Edison, making him the man with the most inventions in US history.

Thomas Edison was born in Ohio in 1847 – the youngest of seven children. He (g) _____ (teach) by his mother at home. He read books from the library and (h) _____ (encourage) by his mother to do experiments at home. He often took things apart to see how they worked and at a young age he decided to become an inventor.

When he was 22, he moved to New York and developed his first commercial invention called the Universal Stock Printer. He (i) _____ (pay)

\$40,000 for it. He got a reputation as a brilliant inventor.

Some of his other inventions include the telegraph – a way of sending messages – and the phonograph – a way of recording sound. He also invented the motion picture, the battery for the electric car and, of course, the light bulb.

When he died in 1931, aged 84, the lights (j) _____ (turn off) in many homes to show respect for one of the greatest inventors of all time.

For sources of data in exercise, see acknowledgements page.
