

LIVING OFF GRID

Tanner and Marian are American. They (a) live/are living in a small wooden house on Kodiak Island in Alaska. At the moment they (b) build/are building a new house on the island. Their houses are 'off grid', this means that they (c) don't buy/aren't buying electricity or water from a company every month like most people. They (d) use/are using solar panels to make electricity and they (e) get/are getting water from the ground every day. On a typical day they (f) get up/are getting up at 5.30 am and then they (g) take/are taking their dogs for a walk at the lake. At 7 am they (h) make/are making a fire, then they (i) have/are having breakfast before starting work on their new house. At the moment they (j) get/are getting ready for winter – they (k) cut/are cutting lots of wood for the fire in their old house. They both love living off grid in this beautiful part of the world.
