

Name: _____

Directions: Find equivalent fractions with common denominators, then add or subtract.

**Pay attention to your operations. Use your notes and examples if you need to.

1. $\frac{4}{9} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$
 $+$ $\frac{2}{3} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$

 $\underline{\hspace{1cm}} = \underline{\hspace{1cm}}$

2. $\frac{5}{6} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$
 $-$ $\frac{2}{8} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$

 $\underline{\hspace{1cm}} = \underline{\hspace{1cm}}$

3. $\frac{2}{5} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$
 $+$ $\frac{2}{4} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$

 $\underline{\hspace{1cm}} = \underline{\hspace{1cm}}$

4. $\frac{2}{3} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$
 $-$ $\frac{5}{8} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$

 $\underline{\hspace{1cm}} = \underline{\hspace{1cm}}$

5. $\frac{1}{9} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$
 $+$ $\frac{3}{5} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$

 $\underline{\hspace{1cm}} = \underline{\hspace{1cm}}$

6. $\frac{6}{8} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$
 $-$ $\frac{1}{2} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$

 $\underline{\hspace{1cm}} = \underline{\hspace{1cm}}$

7. $\frac{9}{10} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$
 $-$ $\frac{1}{4} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$

 $\underline{\hspace{1cm}} = \underline{\hspace{1cm}}$

8. $\frac{3}{4} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$
 $+$ $\frac{4}{16} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$

 $\underline{\hspace{1cm}} = \underline{\hspace{1cm}}$
