

- 1** Read the text and write the dates connected to the history of the camera on the timeline below.

Many years ago, people made pictures on a wall by letting the sun into a dark room through a tiny hole – they called this room a camera obscura. Before 1825 there were no photographs, but in 1829 Louis Daguerre invented the first camera. Then, in 1888, George Eastman invented the Kodak camera. After that, Steven Sasson invented the first digital camera in 1975. Now most people have a camera on their smartphone. We can all take photos.

0 Before
1825
no one took
photos

1. Louis
Daguerre -
first camera

2 George Eastman - Kodak camera

3 Steven
Sasson
- digital
camera

4 most people
have a
camera

- 2** Complete the sentences with the past simple form of the verbs in brackets.

→ the internet
(invent)

1991-1994

People → the internet with
telephone lines (connect to)

1994

Customers + first pizza
online (order)

1997

People + Wi-Fi
(connect to)

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page. There are approximately 20 lines visible. On the left side, there is a vertical margin line, creating a narrow left margin. The paper appears to be from a notebook or a standard ruled document.
