

EXPOSITORY WRITING CLASSIFICATION

Instruction: Read each statement and classify whether it is Informative or Explanatory. Write "I" for Informative and "E" for Explanatory in the blank.

1. _____ Polar bears are found in the Arctic and have adapted to cold environments with thick fur and a layer of fat beneath their skin to survive in freezing temperatures.
2. _____ The process of photosynthesis involves plants using sunlight, carbon dioxide, and water to make their own food, which releases oxygen as a byproduct.
3. _____ To bake a cake, first preheat the oven, mix the ingredients, pour the batter into a pan, and then bake for 30 minutes until golden brown.
4. _____ Global warming refers to the gradual increase in Earth's average surface temperature due to human activities like burning fossil fuels and deforestation.
5. _____ The American Civil War was fought between 1861 and 1865 primarily over the issues of slavery and states' rights.
6. _____ If you are having trouble with your computer, try restarting it to see if that resolves the issue before contacting technical support.
7. _____ The human respiratory system consists of the nose, throat, lungs, and diaphragm, which work together to allow us to breathe and supply oxygen to the body.
8. _____ In order to grow a healthy garden, it is important to choose the right plants for your climate, prepare the soil with compost, and water regularly.
9. _____ Climate change is causing more frequent and severe weather events, such as hurricanes, droughts, and wildfires, as a result of rising global temperatures.
10. _____ The water cycle includes processes like evaporation, condensation, and precipitation, which work together to circulate water throughout Earth's atmosphere and surface.
