**Time : 60 minutes**

**Class :**

**Class/Semester : IX/ I**

### I. Multiple Choice

*Read the text carefully and answer the questions correctly*

Bekantan, also known as the proboscis monkey and its scientific name is *Nasalis Larvatus*, is a unique primate native to the island of Borneo in Southeast Asia. This species is easily recognizable due to its large, distinctive nose, which is more pronounced in males. Bekantan primarily inhabit mangrove forests, swamps, and coastal areas, relying on their strong swimming abilities to navigate through their watery habitats. They are herbivores, with a diet consisting of leaves, fruits, and seeds. Unfortunately, the bekantan population is declining due to habitat loss and hunting, making conservation efforts critical for their survival. Bekantans play an essential role in their ecosystem by aiding in seed dispersal and maintaining the health of their forest habitats.

**1. What is the primary habitat of bekantan?**

- a) Desert
- b) Mountain
- c) Mangrove forest
- d) Grassland

**2. Why is the bekantan population declining?**

- a) Overpopulation
- b) Habitat loss and hunting
- c) Natural predators
- d) Climate change

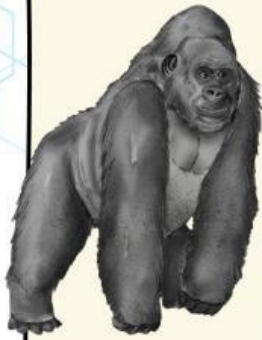

**3. What unique feature distinguishes male bekantan from females?**

- a) Large ears
- b) Long tail
- c) Large nose
- d) Bright fur

**4. What is the scientific name of Bekantan?**

- a) *Beringeii Beringeii*
- b) *Cercopithecidae*
- c) *Pongo pygmaeus*
- d) *Nasalis Larvatus*

*Read the text carefully and answer the questions correctly*

Gorillas are the largest apes in the world, they live in the forests of central Africa, especially in the forest of Cameroon and Congo. They are known for their strong family bonds and live in groups called troops, which are led by a dominant male known as a silverback. Gorillas primarily eat a vegetarian diet consisting of leaves, fruits, and stems. Despite their formidable size and strength, gorillas are generally peaceful animals and only display aggression when they feel threatened. These intelligent creatures share about 98% of their DNA with humans, making them one of our closest relatives in the animal kingdom. Sadly, the females gorilla give birth to only one baby every four to six years. It makes the Gorilla's Population decrease every year. They are now endangered species.

**5. How much DNA do gorillas share with humans??**

- a) 50%
- b) 75%
- c) 98%
- d) 100%

**6. Why are gorillas considered endangered?**

- a) Birth rate of baby gorillas considered low
- b) Habitat destruction and poaching
- c) Overpopulation
- d) Lack of food sources

*Read the dialog and answer the questions below:*

Fauzan : Hey, Sonya! Have you ever heard of the helmeted hornbill?

Sonya : Hi, Fauzan! Yes, I have. It's a fascinating bird, isn't it? I read that it's native to the forests of Southeast Asia.

Fauzan : Exactly! What's really interesting is its unique casque. It's not just for show; it's actually solid and quite valuable.

Sonya : I know, right? Unfortunately, that makes them targets for poaching. Their casques are used to make carvings, which are highly prized.

Fauzan : That's true, and it's really sad. The helmeted hornbill is now critically endangered because of this illegal trade.

Sonya : We definitely need more conservation efforts to protect them. Education and stricter laws could help reduce poaching.

Fauzan : Absolutely. It's crucial to raise awareness about their plight. Hopefully, more people will support conservation programs.

Sonya : Agreed. Every little effort counts when it comes to saving such magnificent creatures.

7. What part of the helmeted hornbill is particularly valuable and sought after?

- a) Its feathers
- b) Its casque
- c) Its beak
- d) Its wings

8. What do Fauzan and Sonya suggest as a solution to help the helmeted hornbill?

- a) Building more zoos
- b) Buying another birds
- c) Breeding them in captivity
- d) Increasing conservation efforts and education

Yesterday, Nayla and Anisa, along with their classmates, took part in their classroom cleaning duty. They worked diligently as a team to ensure the classroom was spotless. Nayla swept the floor while Anisa wiped the desks, and together they arranged the chairs neatly. Their combined efforts made the classroom look tidy and welcoming for the next day's lessons. The teamwork not only made the task easier but also strengthened their friendship.

9. Who helped Anisa and Nayla in cleaning the classroom?

- a) Just Nayla
- b) Only Anisa
- c) Their classmates
- d) The teacher

10. How did the cleaning activity affect Nayla and Anisa's friendship?

- a) It weakened their friendship
- b) It had no effect
- c) It strengthened their friendship
- d) It made them competitive

## II. Complex Multiple Choice (Soal Pilihan Ganda Kompleks)

Put (✓) in the box in front of the statement for the correct answers (Centang pada box didepan jawaban yang benar)

### Trip to Kaibun National Park

The trip to Kaibun National Park last month on July 2024 with my school friend was really fun. We went vacation to celebrate our last year in Junior High School. We went there by bus. This was my first time vacation with friends because I used to go everywhere with my family. When I was there, I saw a lot of plants. I also took lots of pictures there especially of the rare place because I'd like to show the photos to my mom. Not only that, I also visited the Orchid House. I saw a lot of orchids and the most beautiful orchid for me is the black orchids. The black colored part could be seen when the flower blooms. I was so lucky to see it.

11. According to the text, the correct statement about the text are....

Choose two correct answers (Pilih dua jawaban yang benar)

	The trip to Kaibun National Park is on July 2024
	Going vacation to Kaibun National Park is the writer's first experience
	He went there buy rented car
	He used to go everywhere with his friends

12. According to the text, what did the writer do in Kaibun National Park?

Choose two correct answers (Pilih dua jawaban yang benar)

	He didn't see a lot of plants
	He took pictures of rare plants
	He visited the Orchid House
	He was not lucky to see the black colored Orchid

Read the text about Galang's Experience going to Karimunjawa and then answer the questions

 Home Profile Discover

### What an Experience!

This was my first experience going to Karimunjawa. It was so fun. I was so excited days before the trip. I went there with other winners from different schools. We had the holiday last month, from April 21st to April 22nd. We went there by ferry.

Karimunjawa is a group of islands located north of Java, around 83 kilometers from Jepara. There are two options if you want to get there. The first one is using a ferry, which costs 81,000 rupiah. It takes 1 hour 45 minutes. The other option is using a car ferry, which is cheaper, only 72,000 rupiah. However, it takes longer to get there, around 6 hours. The committee provided us the first option because it took less time.

We departed from Jepara in the morning so we could spend more time in the afternoon exploring the islands. Once we got there, we were taken straight to the hotel where we had lunch. The next thing to do was enjoying the sunset at Bukit Love Karimunjawa. It was amazing! As soon as the sky got darker, we went back to the hotel. We had dinner before we continued our activity. We explored the hotel premises.

The next day, we did other activities. We went snorkeling after we finished our breakfast. We had a chance to have our pictures taken with beautiful fish and coral reefs there. I also spent time swimming with sharks. It was both exciting and thrilling. We went back to the hotel once we finished all the activities. We packed before we left the islands.

Although it was a short holiday, we enjoyed ourselves. It was really fun.

#holiday #Karimunjawa #jepara

**13. Who were going to Karimunjava?**

**Choose two correct answers (Pilih dua jawaban yang benar)**

<input type="checkbox"/>	Galang
<input type="checkbox"/>	Galang's Family
<input type="checkbox"/>	Galang's Friend at school
<input type="checkbox"/>	Other winners from different school

**14. According to the text, the what did Galang and others do in the first day of vacation?**

**Choose two correct answers (Pilih dua jawaban yang benar)**

<input type="checkbox"/>	They went shopping in the shopping centre
<input type="checkbox"/>	Enjoying the sunset at Bukit Love Karimunjava
<input type="checkbox"/>	explored the hotel premises
<input type="checkbox"/>	Had dinner in the restaurant

**15. According to the text, the what did Galang and others do in the second day of vacation?**

**Choose two correct answers (Pilih dua jawaban yang benar)**

<input type="checkbox"/>	They went snorkeling after they finished their breakfast.
<input type="checkbox"/>	The writer felt unhappy for the holiday.
<input type="checkbox"/>	They went back to the hotel once they finished all the activities
<input type="checkbox"/>	The writer took a picture of the sharks.

### III. True or False Questions (Soal Benar atau Salah)

Last summer, I went on a trip to **Biduk-Biduk Island** in **East Kalimantan**. It was so fun. I was so excited because it was my first time travel there with my family. We had only 3 days, starting from 8th of June to 11th of June. We went there by car.

One of the popular destination in Biduk-Biduk was **Kaniungan Island**. After parking the car at the harbor, and we were taken to the island using a boat that we rented. The highlight of the trip was the beautiful beach with its crystal-clear water. There were many activities to enjoy, like drinking fresh coconut water while relaxing on the sand. I also played beach volleyball with some friends, which was a lot of fun.

Staying on the island was comfortable. The hotel was affordable, costing around 500,000 IDR per night. To explore the island, we rented a boat for 300,000 IDR, which was a great way to see the coastline. For meals, we enjoyed local seafood dishes like grilled fish and shrimp, which were delicious and reasonably priced. The trip was a fantastic experience, full of adventure and relaxation. I was really happy at that moment.

Read the paragraph and put (✓) in the following statements are true or false based on the table

No	Statement	True	False
16	The writer went to Biduk-Biduk Island in June		
17	The writer has been to Biduk-Biduk Island before		
18	The writer played soccer with his friends at the beach		
19	The writer drank coconut water while relaxing on the sand		
20	The writer felt unhappy with the trip		

### IV. Matching questions (Soal Menjodohkan)

Read the text carefully!

#### A Memorable Trip to Taman Safari Prigen

During my recent holiday, I visited Taman Safari Prigen in Pasuruan, an experience that was both exciting and educational. Our itinerary was planned to ensure we made our trip was running well. We began the day with an early morning **at 07.00 a.m** to had safari drive, which allowed us to witness a variety of animals in their natural habitats, from majestic lions to playful elephants. We also had a moment to feed the wild animals like lion and took some pictures with giraffe. After the safari, we attended an entertaining animal show **at 11.00 a.m** that highlighted the importance of wildlife conservation. **At 13.00 p.m** we had a lunch at the restaurant. In the afternoon, **at 15.00** we went to local market to buy some souvenirs and foods. There were variety of traditional foods from East Java. After walked around for an hour, **at 16.30** we decided to go back home. We concluded our visit with a relaxing stroll through the park's verdant gardens. Reflecting on the day, I felt happy for the opportunity to connect with nature and learn more about the incredible creatures that inhabit our world.

Based on the text about A Trip to Taman Safari match the schedule with the correct activities!

	Schedule				Activity
21	at 07.00. am	●	●	a)	 Went back home
22	at 11.00 a.m	●	●	b)	 Had a lunch
23	at 13.00 p.m	●	●	c)	 Bought souvenirs and foods
24	at 15.00 p.m	●	●	d)	 Safari Drive
25	at 16.30 p.m	●	●	e)	 attended entertaining animal show

#### IV. Essay (Soal Essay)

Read the text and then answer the question correctly (Baca teks dan jawablah pertanyaan dengan benar. Jawaban diketik dengan huruf kecil)

#### Orangutans

Orangutans are great apes from Indonesia. Orangutan means man of the forest. They live in Sumatra and Borneo. The scientiic name of Orangutan from Northern Sumatra is Pongo Abelii and the scientiic name of Orangutan from Borneo is Pongo Pygmaeus.

Orangutans have big bodies. A male orangutan can be more than 100 kilograms and can be quite tall. His height can be up to 150 centimeters tall. Female orangutans are smaller and shorter than the males. A mature female orangutan's weight is about 40 kilograms. Her height is about 120 centimeters tall.

Orangutans have reddish brown hair. Unlike monkeys, they do not have tails. They have strong arms. They use their arms to swing between branches.

Orangutans live with their small family groups. They usually live in the tree branches where they build their nests. Orangutans' favorite food is fruits. They also eat insects, honey, bird eggs, bark, and plants. They sometimes eat meat too. When they are thirsty, they sometimes drink the water from holes in the tree branches.

Orangutans are an endangered species because their habitat is threatened by people doing deforestation. The number of Bornean orangutans around 2017 was estimated at about 104,000 and the Sumatran orangutans about 7,500.

Answer the questions in English and type use lowercase (ketik dengan huruf kecil)

1. What is the animal described in the paragraph?
2. A male orangutan can be  meters tall. (tuliskan dalam bentuk angka)
3. Orangutans are strong animals because they use their  to swing between branches
4. Orangutans' favorite food is fruits. They also eat insects, honey, bird eggs, bark, and plants. They sometimes eat meat too. Orangutans can be categorized as
5. There are about  orangutans in Sumatra and Borneo. (tuliskan dalam bentuk angka)
