

UNIT 2. WEATHER AND CLIMATE

1. Match.

- | | | | | | | | |
|----------------------|--------------------------|---|---|---|---|---|---|
| a. climograph | <input type="checkbox"/> | 1 |  | 2 |  | 3 |  |
| b. rain gauge | <input type="checkbox"/> | 4 |  | 5 |  | 6 |  |
| c. hail | <input type="checkbox"/> | 7 |  | 8 |  | 9 |  |
| d. hurricane | <input type="checkbox"/> | | | | | | |
| e. weather forecast | <input type="checkbox"/> | | | | | | |
| f. greenhouse effect | <input type="checkbox"/> | | | | | | |
| g. tornado | <input type="checkbox"/> | | | | | | |
| h. cloudy | <input type="checkbox"/> | | | | | | |
| i. sunny | <input type="checkbox"/> | | | | | | |

2. Complete the map key with Spain's climate types.

3. Underline.

- a. Only regions in the **north / south** of Spain have got an oceanic climate.
- b. Parts of the **Balearic / Canary** Islands have got a subtropical climate.
- c. **Inland / Coastal** regions are colder in winter.
- d. Madrid has an **inland / coastal** Mediterranean climate.
- e. Mountain climates get **hotter / colder** the higher they are.
- f. The oceanic climate has got **more / less** rainfall than the subtropical climate.
- g. The inland Mediterranean climate has got **higher / lower** temperatures than the mountain climate.
- h. Andalucía has got **two / three** different climate types.
- i. Most of **Galicia / Cataluña** has got an oceanic climate.
- j. The archipelago in the **Atlantic / Mediterranean** Sea has got a coastal Mediterranean climate.

4. Write the instruments:

anemometer	weather vane	thermometer	rain gauge
------------	--------------	-------------	------------

- a. It measures temperature. _____
- b. It measures wind direction. _____
- c. It measures rainfall. _____
- d. It measures wind speed. _____

5. Complete.

trap

moves

natural

warms

The greenhouse effect is a _____ process in the atmosphere which helps keep us warm. The atmosphere reflects some of the Sun's heat. The rest passes to the Earth's surface and _____ it. The heat from the Earth's surface _____ up into the atmosphere. Some of it escapes back into space but greenhouse gases _____ the rest of it in the atmosphere.
