FAVORITE BOARD GAMES

A Chess

My name is David. My favorite board game is chess. Chess started many years ago in India (הודו / الهند). It's a game for two players. One player gets 16 white pieces (כלים / قطع). The other player gets 16 black pieces. Players move their pieces and try to "eat" the other player's pieces. There are many ways to move the pieces. The first player to "eat" the other player's king wins the game.

I like to play chess with my grandfather. It's true chess isn't easy, but it teaches me how to think.

B Catan

I'm Sophie and my favorite board game is Catan. I like to play it with my mom, dad and sister. It's a lot of fun!

Catan is an island (אי / جزيرة). In the game, players get points (נקודות / نقاط) when they build towns and roads on the island. The first player to get 10 points wins the game. I think the game is best when there are four players, but it's also a good game for three players.

2 Answer the questions.
