

Здравей!

Това е Упражнение №27

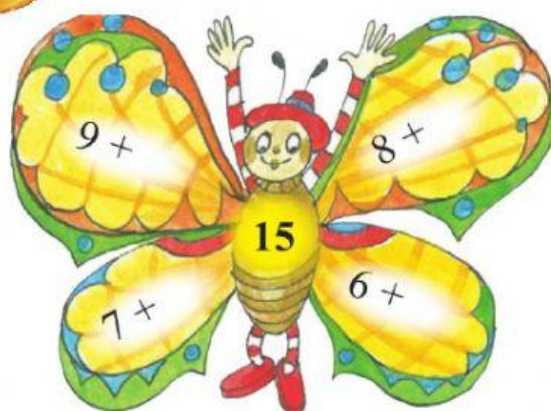

Ще продължим да
събираме и изваждаме до 20.

Не е трудно!

1. Допълни.

2. Пресметни.

$$\square\square = 8 + 6$$

$$\square = 14 - 6$$

$$\square = 14 - 8$$

$$18 - 12 = \square$$

$$17 - 12 = \square$$

$$16 - 12 = \square$$

$$8 + 8 = \square\square$$

$$16 - 8 = \square$$

$$\square + 8 = 16$$

$$16 - 7 = \square$$

$$\square\square - 7 = 9$$

$$\square\square - 9 = 7$$

3

$$6 + 5 = \square\square$$

$$5 + 6 = \square\square$$

$$11 - 5 = \square$$

$$11 - 6 = \square$$

$$8 + 3 = \square\square$$

$$3 + 8 = \square\square$$

$$11 - 3 = \square$$

$$11 - 8 = \square$$

4

$$11 - \square = 7$$

$$11 - \square = 6$$

Лесно е!

5. Пресметни и направи проверка със събиране.

$$13 - 6 = \square$$

$$\square + \square = \square\square$$

$$13 - 9 = \square$$

$$\square + \square = \square\square$$

Благодаря!
