Part 5: Watch this 1-minute video about earthquakes and answer the questions.

1- What are the main causes of earthquakes?

2- What safety tips are mentioned in the video?

Part 6: Read the paragraph and answer the questions.

Tsunamis are massive waves caused by underwater earthquakes, volcanic eruptions, or landslides. They travel at high speeds and can cause devastating damage to coastal areas. Warning systems have been developed to minimize the loss of life.

Questions:

1- What causes tsunamis?

2- How do warning systems help?
