READING

Task 5 **Read the paragraph from Nick and choose a), b) or c).**

My best friend, Ben, is twelve years old. He is sometimes very curious and often reads a lot. Ben doesn't like multiplying, subtracting or doing any other calculations. That is why his least favourite subject at school is Maths. However, he enjoys Science – learning about different creatures and doing experiments. He is also interested in History – he likes battles. We often meet and have fun together. It was my birthday two days ago and we celebrated it in a cafe. Ben gave me the coolest present ever – a new computer game! We had some contests with the rest of my friends and ate some tiramisu and macaroons. Next Sunday is Ben's birthday and I already know what to prepare for him – a surprise party at his favourite cafe with some fireworks in the end!
