You probably won't hear the same words on the recording that you read in the list A-G, or if you do, they might not be spoken by the right speaker. You must listen carefully to what each speaker says rather than focus on the words you read. For example, Speaker 2 starts off by saying *I'm not a very confident person ...*, but goes on to talk about her cousin who is much more confident. Which item on the list A-G might you think is the answer if you're not listening carefully?
