

- 1 Look at the underlined words in the paragraph and replace each one with one of the words from the box.

peaks

climates

inhabitants

forests

cliffs

tropical

Geography is a very interesting subject. By reading about countries, you get to imagine living in different <sup>1</sup> weather conditions around the world, freezing cold or <sup>2</sup> hot and humid. You can also imagine meeting <sup>3</sup> residents of strange and new places. You can go on adventures to faraway new places, like <sup>4</sup> jungles. You can even dream about jumping off <sup>5</sup> steep rocks into the sea, and reaching high <sup>6</sup> mountain tops.
