

## Science

Stage 8

Paper 1

**PRACTICE PAPER**

**2024**

### Cambridge Lower Secondary Progression Test

Name

Class

Date

**45 minutes**

No additional materials are needed.

#### INSTRUCTIONS

- Answer **all** questions.
- Write your answer to each question in the space provided.
- You should show all your working on the question paper.

1 Ahmed has time and distance measurements for a bicycle journey.

time in s	distance in m
0	0
20	60
40	240
60	420
80	600
100	760

(a) Write down the equipment he uses to make these measurements.

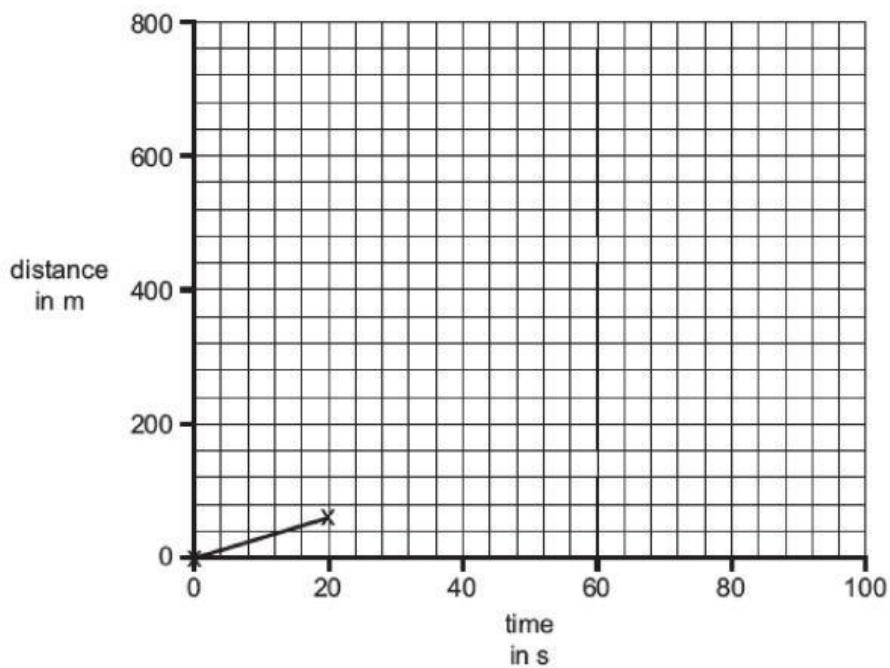

time to measure 20 s .....

distance to measure 60 m .....

[2]

(b) Complete the graph by:

- plotting the other four points
- drawing a line to connect the points.

[2]

(c) Calculate the speed when a distance of 60 m is travelled in 20 s.

Use the equation shown.

$$\text{speed} = \frac{\text{distance}}{\text{time}}$$

speed = ..... m/s [1]

2

Yuri runs a 100 m race.

He takes 13 seconds to run 100 m.

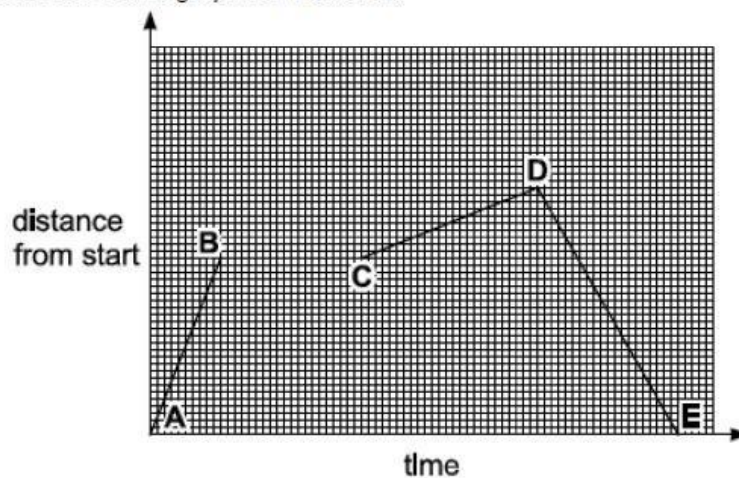

(a) Calculate Yuri's average speed.

Include the units in your answer.

Yuri's average speed = ..... [2]

(b) Yuri does a run.

Look at the distance/time graph for Yuri's run.

Yuri stops for a rest.

Between which points does Yuri stop for a rest?

Tick (✓) the box next to the correct answer.

**A and B**

☐

**B and C**

☐

**C and D**

☐

**D and E**

☐

[1]

3.

This question is about energy resources.

(a) Look at the list of resources.

**bioplastics**

**fossil fuels**

**tidal power**

**vegetable oil**

**solar power**

Complete the table to group the resources into renewable **and** non-renewable resources.

<b>renewable</b>	<b>non-renewable</b>

[2]

(b) Wind power and coal are resources used to generate electricity.

Describe **two** advantages of using wind power instead of coal to generate electricity.

1

.....

2
