Oh-oh

("The Divine Feminine")(x2)

Oh

Am I supposed to? Okay

Love, love, love, love, love, love (sex)(x2)

This sun don't shine when _____

I lose my mind and _____

_____ look through my soul

Don't be surprised this all I know

I felt the highs and they felt like you

See, a love like mine is too good to be true

And you too divine to _____

You remind me of the color blue

Girl, I'm so in love with you, yeah(x2)

Yeah

Yeah, yeah, baby

Yeah, yeah

Um, well

Baby, you were everything I ever wanted

Bought a wedding ring it's in my pocket

Planned to ask the _____, knew
you'd run away

_____ I just forgot it

Remember when you went away to college?

I was on the phone, we end up talkin'

_____, _____, _____, all the gossip,
goddamn

Puppy love ain't what it was, darlin'

The _____ that we have were so alarmin'

I can make you laugh, I could break the glass

If we made it last, it'd be a bargain

Mr. Charmin', _____

You was there before the fancy cars and

You was there when I was just a starvin' artist

When the car was havin' trouble startin'

Now we got our own apartment

Same box for the mail

Same hamper for the _____

The food in the fridge is stale

And this mornin' you cooked the eggs with the
kale

I tried to hit it while you was gettin' dressed

You said, "All you ever think about is sex"

_____, "Oh, well, you know me so well"

And if this what make you late, _____ I won't
tell

And every time I call your phone, you better
pick up your cell

_____ I'ma freak out if it goes
straight to voicemail

_____, I'm the jealous type, but I swear that
ass is what Heaven's like

And when I'm in that pussy, it's a better life

That's the only way I'm tryna end the night

That's my only chance, I better get it right

_____, my baby

'Cause I'm waitin' for you, for you

I know I make your mind _____

But it's all waitin' right here for you, for you
(ooh, ooh-)

You would get close, I would run away

All I ever know is the _____

Your loving ways bring me sunshine

I found an _____ (so divine)

Heaven probably not the same without you (not
the same)

But now you're in my world (in my world), in my
world

Now(x5)
