

WORKSHEET

Date: 17/12/2024
FFs3 – Unit 5

Teacher's feedbacks

Task 1: Read and write the correct word next to its definition.

forest

jungle

savannah

camel

gecko

swamp

habitat

desert

1. The natural home or environment where a plant or animal lives: _____
2. A large, dry area with very little water and lots of sand: _____
3. A big, flat grassland where lions and zebras live: _____
4. A place with lots of trees and is home to many animals like monkeys: _____
5. A wet and muddy area with lots of water and plants: _____
6. A thick, tropical area with many trees and vines: _____
7. An animal with a hump that can go for days without drinking water: _____
8. A small lizard that can stick to walls and is found in warm places: _____

Task 2: Read the description and decide whether they are Jungle or Forest.

1. A dense, tropical area with thick plants, vines, and humidity. It's harder to walk through due to the dense vegetation.

.....

2. A larger area covered with trees. It has more open spaces between trees, making it suitable for hiking and camping.

.....

3. It's often found near the equator with heavy rainfall and warm, humid weather.

.....

4. Home to unique plants and animals not typically found in forests.

.....

5. Can be found in various climates, including tropical, temperate, and boreal.

.....

6. Supports a wider variety of plant and animal species, including those in warmer and colder climates.

.....

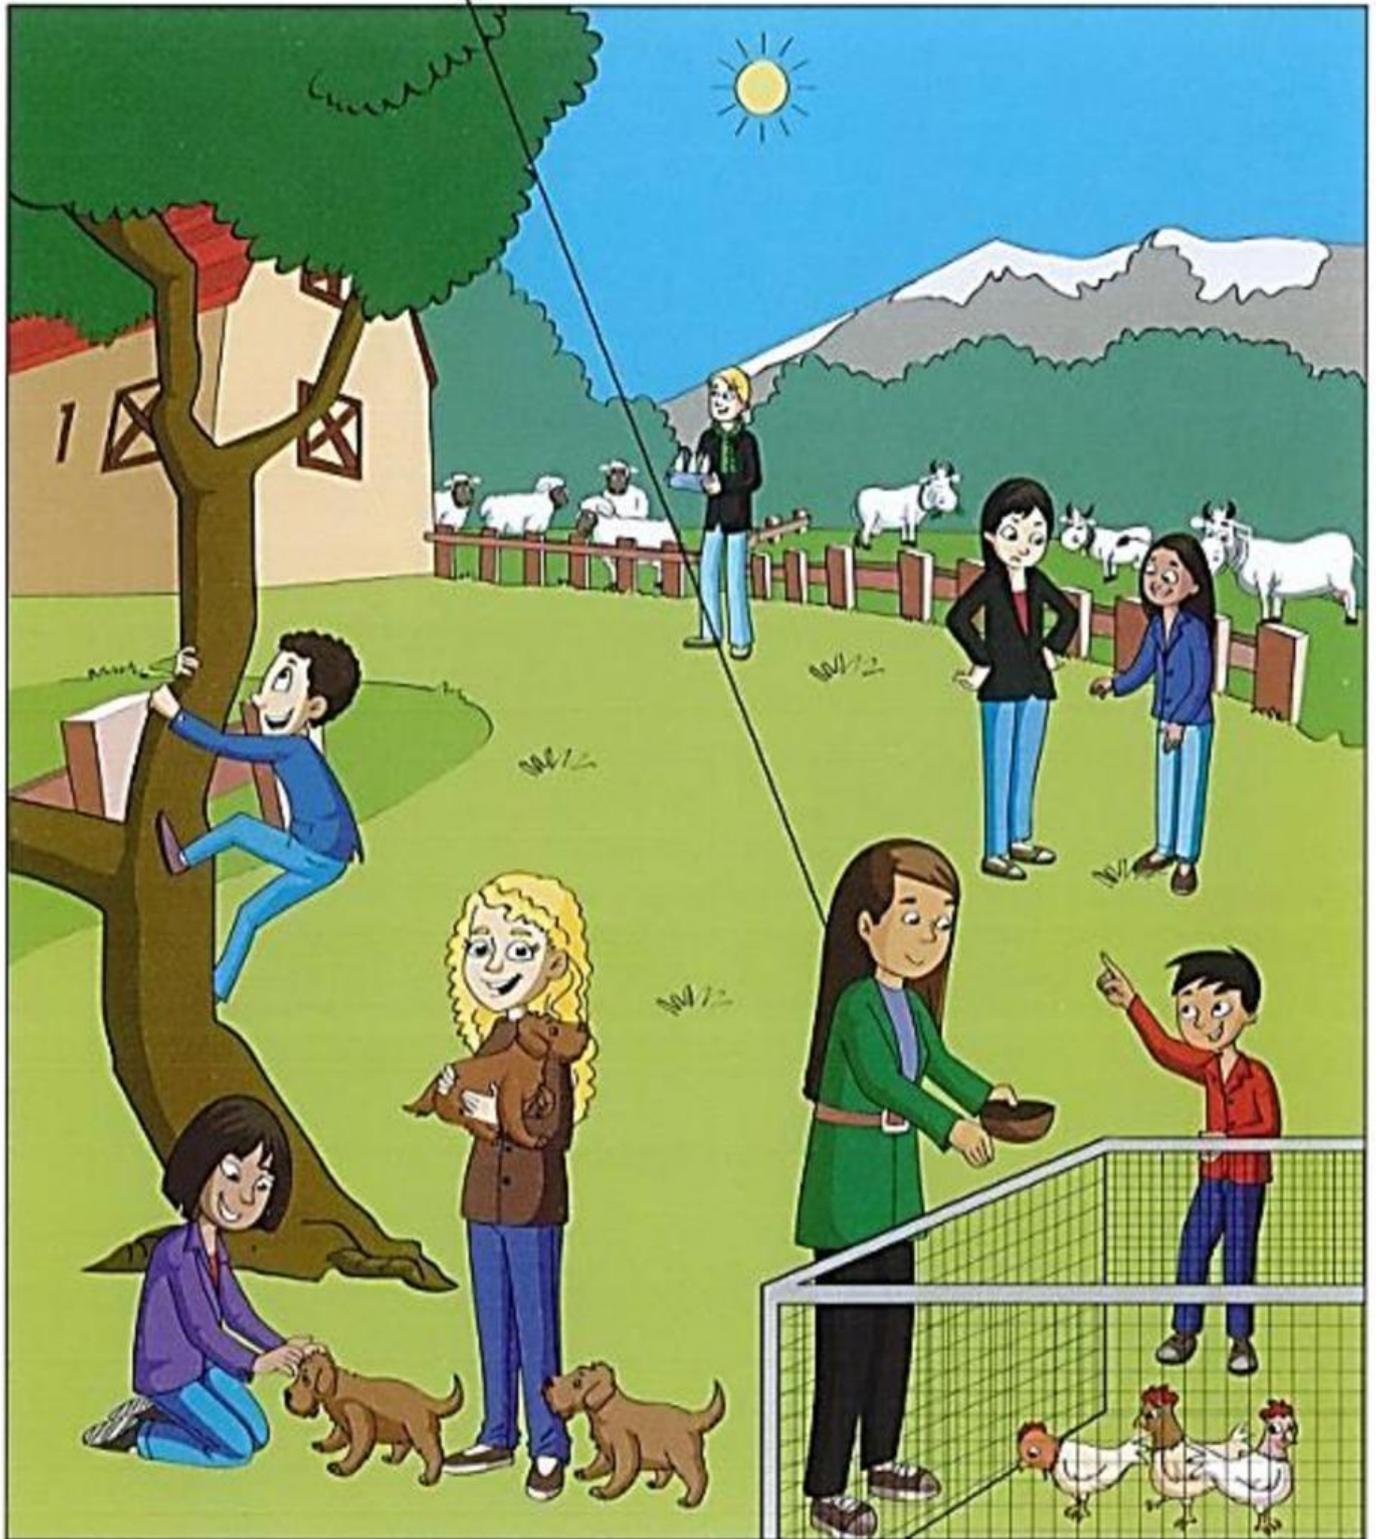

Task 3: Listen and match.
