

Drag and drop the correct answer into the appropriate blank space.

The Design Cycle

Design idea	Research	Final Design
Design Problem	Specification	Analysis
Evaluation	Development	Design brief

Example

I'm going to the fridge what ingredient shall I add?	In the fridge there are many choices for ingredients	I need chicken, flat breads, yoghurt, spices.
What if I add mayonnaise and some salt and pepper	I am hungry, I will make myself a Shawarma	I have decided to make a chicken flat bread with yoghurt, cumin, avocado, salt and pepper
I could add lettuce, cucumber, and avocado.	I know I like chicken but I do not like tahini, what other options do I have?	That was a good sandwich. Next time I might add falafel
